Each side retains advantages and disadvantages relative to the other. For instance, the Soviet Union does retain an overall advantage in missile-throw weight. However, this advantage is more than offset by United States superiority in total warheads deployed and greater warhead survivability as a result of more diverse United States strategic force deployments. 1982-03-19	1982-03-19	https://www.nytimes.com/1982/03/19/opinion/old-new-hamilton-ohio-1793-young-soldier-deserted-fort-hamilton-compound-which.html	OLD-NEW HAMILTON, OHIO; In 1793, a young soldier deserted the Fort Hamilton compound, which was not yet a town but only a defensive perimeter against the Indians, to return to his sweetheart in New York. Caught a few miles downriver, he was brought back to the garrison where he was, an early chronicler noted, "swung off without a murmur." In 1978, a respected citizen of Hamilton was accused of a crime few people had previously thought of as a crime and which no one wanted to talk about until the alleged incident became a public scandal - the occasion for the town to examine itself as it never had. The resemblance between the calamities is less than identical, more than coincidental. In each case the collective impulse was to get rid of someone whose presumed deed threatened what was perceived as the integrity and structure of the community. We will be in China for three weeks and on Taiwan for one week. Which cities between New York and Peking do you suggest we make our connections in? - C. C., Armonk, N.Y.; Answer:The journey by air from New York to Peking takes about 24 hours overall and crosses 11 time zones and the international dateline. It may therefore be wiser to think in terms of which cities you would like to visit, however briefly, than to try to construct a close web of connections that will cause your family to arrive very tired and out of synchronization with local time.	False		1982-03-31	TX 970680
